

Education

The Ft. Worth APA chapter is proud to help payroll professionals obtain the necessary knowledge to test for their CPP/FPC certificates. We invite all levels of payroll knowledge and will help you understand the difficult areas of our profession.

The chapter holds classes twice a year on the TCC campus in Fort Worth. We have a lot of fun learning about topics that are hard to understand. I am proud to be the Education Director for my chapter and I like even better the bragging rights of saying that we have had over a 60% success rate in students that have successfully received their certifications.

For more information please contact me.

We will be happy to help you take that next step in your professional career.

You can also contact TCC for other methods of registration and payments at:
